From the Principal's desk

Giinagay and welcome to Week 7.

Firstly, I would like to thank our school community for their generosity and support over the last few weeks. It has been amazing to see the kindness shared around the school, it really helps to make our school a safe place for emotions to be expressed and supported. It is communities like these that band together to look after each other and give our kids a place of calmness and care.

Community BBQ/Fundraiser/School Disco – On the same day as we hold our Presentation Assembly 12:30 – 2:30pm, we will have a community BBQ, cake stall, disco from 4:30 - 6:30pm. The theme for the Disco Family Afternoon is Christmas and you can dress accordingly if you like. Our Fathering Group, P&C and Staff are working together to make this night successful. If you have anything that you feel could contribute to the success and fun of this afternoon, please contact the office.

Events – Over the next few weeks there is lots happening in and out of the school. We have excursions, enrichment days, the Year 6 dinner, the Big Day out and the School Fun Day. It is great that we are able to give our students all these different opportunities to go outside of their comfort zone and challenge themselves to try new things. I look forward to seeing photos and hearing stories from these days, I know our students will represent Nana Glen Public School with pride.

Raffle – We have seen lots of tickets coming into the office which is great! The funds raised from our end of year raffle will be added to the money raised on the community night for the Rooney Family. If you need any more tickets to sell, please feel free to come and pick some up from the office.

Take care,

Joshua Hugo

Congratulations to **Year 1** who have Betsy for the week and **Year 4/5** who have Bear. We look forward to seeing attendance levels return to their high levels now that we are mostly over the flu season.

Library News

We are currently awaiting the return of all borrowed books to our shelves for our end of year muster. Please if you have any outstanding books in your shelves, return them as soon as possible.

Our library still has a range of new books that are looking for friends to cover them, so they are protected. If you are able to cover these books, could you contact the office, and we will arrange some to be collected.

Thank you for your help in adding these books to our borrowing lists.

Whats happening in class 5/6

*“Art washes from the soul the dust of everyday life.”
— Pablo Picasso*

- ✓ **Creativity helps to stimulate our mind** and keep our brain active. It can help to boost our concentration, reminisce about our past and retain our memories.
- ✓ **Making art relieves stress and anxiety.** It provides new sensory experiences and focuses our attention away from our daily worries.
- ✓ **Making art can boost our self-esteem** and sense of accomplishment. It allows us to explore new things in a safe space and teaches us that it is okay to make mistakes along the way.
- ✓ **Art brings us together.** When being creative with others we feel less isolated and more connected as a community. Art helps us to communicate things that are sometimes too difficult to put into words.

Many thanks to Years 1 and 2 for sharing their Picasso skills.

NOVEMBER ARTICLE

ASD: Teacher Assistants and Strategies to Consider if You Don't Have an Assistant

11 Key Strategies for Teacher Assistants

An assistant should try to:

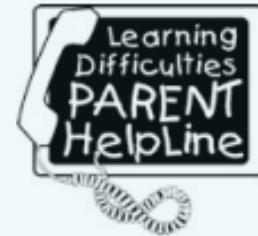

1. Work towards the student becoming independent. Try to allow the student to do things for himself at his own pace, even when he is falling behind a little.
 - A. Only start to help him when he is stressed and/or becoming overwhelmed by sensory issues in the classroom.
 - B. Doing things for the student promotes dependant behaviour and ever increasing reliance on you.
 - C. This independence will help to instil self-assurance and self-esteem in the student as he learns new concepts and is able to put them into practice by himself.
2. Teach the student coping strategies.
3. Encourage the student to respond to others in the classroom. (Prompt with correct peer group words and suggestions of how to respond).
4. Help the student understand the hidden agenda rules by discussing situations with the student, explaining what other people may be thinking.
5. Understand the difference between the day a student is able to do work and keep him on task on the days he can't.
6. Encourage the student to be flexible, social and cooperative by explaining the 'whys' and the 'hows' of each situation.
7. Catch opportunities where the special interest of the student can keep him motivated.
8. Fade direct support on occasions to allow the student to grow.
9. Teach the student how to learn.
10. Avoid being the one who rescues the student every time.
11. Avoid fostering helplessness (by doing everything for them).

Some of our activities include

Engineering and Robotics Workshop: This workshop provides theoretical knowledge in software and mechanical engineering combined with Mathematics and Science. This is a hands on workshop where the students will follow a design process and build a working machine using Lego®. They will also be able to program the machine to perform certain tasks.

Electronics Workshop: Students will also be exposed to Electronics components in this workshop. They will build various Electrical circuits using Sensors, LED, Motors etc. This will also involve the use of Renewable energy sources like Solar panels.

Guided Projects: Some of our projects can include: Smart Car, Smart Farm, Smart Home & Sanitation Station.

Parents are requested to provide crunch & sip and lunch clearly labelled with the child's name.

The students may also go through an outdoor activity. Please ensure the child has hat and sunscreen. We have a strict policy of "No hat no outdoor play".
